About the Program

TOGAF (The Open Group Architecture Framework) is an enterprise architecture methodology, offering a high-level framework for software development. It helps in organizing the development process through a systematic approach by aiming at maintaining timelines, reducing errors, aligning IT with business units and staying on budget for the production of quality results

Certified TOGAF professionals understand the procedure of trimming the fat with a clear set of ROIs, which helps them in deciding how the different elements of an organization can contribute towards them. It focuses on boosting efficiency and reducing unnecessary expenditure.

Key Training Features

-  Ask Questions Real-Time and Interact with the Trainer Live
-  Learner assistance and support - 24x7x365
-  Flexible classes
-  High-quality content created by industry experts
-  Professionally designed Student Training Material
-  High-Quality Audio-Video Lectures
-  Lifetime Training Access
-  Assessments

Why TOGAF?

- Higher Paying Opportunities
- Gain Knowledge and Credibility
- Stand Out Among the Ordinary
- Knowledge of ITIL Best Practices
- Better Career Growth & Job Opportunities
- Better ROI with Flexibility
- Sharpen your IT Skillset

Training Options

- Self-paced Training
- Live Virtual Classes
- One on One Training

What will you learn?

- Core concepts of TOGAF
- Details of architecture governance
- Adapting ADM architecture
- Architecture maturity models
- Architecture skills framework

Target Audience

- Solution Architect
- Technical Consultant
- Enterprise Architect
- Software Engineer
- Principal Software Engineer
- Enterprise Architecture Professionals
- IT Architect
- Business Architect

Career Option with Salary Compensation

Solutions Architect

- Minimum - \$76,000/year
- Avg Salary - \$120,000/year
- Maximum - \$161,000/year

Technical Consultant

- Minimum - \$54,000/year
- Avg Salary - \$77,000/year
- Maximum - \$118,000/year

Enterprise Architect

- Minimum - \$95,000/year
- Avg Salary - \$135,000/year
- Maximum - \$172,000/year

Principal Software Engineer

- Minimum - \$108,000/year
- Avg Salary - \$140,000/year
- Maximum - \$180,000/year

Software Engineer

- Minimum - \$63,000/year
- Avg Salary - \$88,000/year
- Maximum - \$129,000/year

Prerequisites

There are certainly no prerequisites for taking the TOGAF Certification, which makes it friendly and creates a base for beginners.

TOGAF Examination Detail

TOGAF Certification course is a standard certification course that allows learners to simplify and speed up development while ensuring evolving systems should remain responsive to legally compliant and business changes. It will also help you in mastering TOGAF's structure, terminology, and concepts while demonstrating your professionalism level in architecture processes and principles.

There are three examinations as follows:.

TOGAF Part 1 examination

- Pass mark 55% (with no prerequisites)

TOGAF Part 2 examination

- Pass mark 60% (must be certified to TOGAF 9 Foundation)

TOGAF Combined Part 1 and Part 2 examination

- Part 1 - Pass mark 55%
- Part 2 - Pass mark 60%

Note: If you take the Combined Exam, and fail a section, they will need to retake the failed section(s) before certification will be awarded.

Course Details

Wissenhive's TOGAF Certification course will allow individuals to enhance their skills and gain advanced knowledge in Enterprise Continuum, Architecture Repository, Architecture Governance, Architecture Content Framework, Metamodel, Architecture Views and Viewpoints, Building Blocks, Preliminary Phase, Business Scenarios, Stakeholder Management, Implementation support, and so on.

- Aligning the IT and business aspects of the organization
- Responding to RFPs from the customer
- In-depth detail of TOGAF and how it can be effectively tailored for the firm
- Strategizing and executing after finding the best solution to a customer problem
- Understanding and applying the basic principles of Architecture Frameworks (TOGAF/Zachman)
- Diving in depth from Solution Architecture to Enterprise Architecture
- Working with practical application scenarios and basics of designing and architecture
- Understanding prioritized requirements and project management essentials for an Architect.

Course Curriculum

TOGAF V9 - Introduction and executive Overview

TOGAF V9 - Architecture Development Method

1. Introduction to ADM
2. ADM Phase Narratives

TOGAF V9 - ADM Guidelines and Techniques

1. Guidelines for Adapting the ADM Process
2. Techniques for Architecture Development

TOGAF V9 - Architecture

1. Data Architecture
2. Business Architecture
3. Applications Architecture
4. Technology Architecture

TOGAF V9 - Architecture Content Framework

1. Content Metamodel
2. Architecture Deliverables
3. Architectural Artifacts
4. Building Blocks

Course Curriculum

TOGAF V9 - Enterprise Continuum and Tools

- 1 Enterprise Continuum
- 2 Architecture Repository
- 3 Architecture Partitioning
- 4 Architecture Development Tools

TOGAF V9 - TOGAF Reference Models

1. Foundation Architecture
2. Integrated Information Infrastructure

TOGAF V9 - Architecture Capability Framework

1. Architecture Board
2. Architecture Contracts
3. Architecture Governance
4. Architecture Compliance
5. Architecture Partitioning
6. Architecture Skills Framework
7. Architecture Maturity Models
8. Architecture Requirements Management
9. Architecture Change Management
